

Name: _____
Date: _____ Pd. _____
Teacher: _____

Stary's Stars

Directions: Read and think about all 5 points before answering each question in the correct place. After you have completed each point decorate your star in a way that does not interfere with what you have written or write in ink. You will cut out your star during class to hang it on the wall.

Points:

1. Write your name and birthday on the center lines (Please write first and last)
2. What goal or goals do you have for science this year?
3. What has been the most important lesson you have learned from your parent(s)?
4. What are your two best qualities or strengths?
5. What is your favorite thing about science and why?
6. What one word best describes you?
